CABINET

Meeting Held Today to Discuss the Chinese Outrages—Troops to Go Forward.

TEN THOUSAND FROM CUBA

Allied Forces Defeated Before Peking with Severe Loss—Americans Suffered Greatly.

SITUATION THERE IS CRITICAL

WASHINGTON, July 16.—A special cabinet council to discuss the Chinese crisis was held today. Eight or ten thousand troops will be hurried there immediately from Cuba.

LONDON, July 16.—The news coming today from China only confirms the gloomiest forebodings of last week.

The allied forces attacked the native city of Peking on the 15th, but were repulsed after desperate fighting. The Chinese forces were 20,000 strong and shot with unexcelled accuracy. The foreigners lost a thousand. The Americans suffered severely. Col. French and Lieut. and Lieut. Davis were killed and several American officers wounded. The situation there is critical, and the Chinese are constantly bringing up reinforcements.

WASHINGTON, July 16.—Consul Goodnow reports nothing from Peking since the 6th, when the Chinese were ready to attack the legations.

This contradicts the report of Prince Cheng admitting the foreigners were massacred on the 8th.

SHANGHAI, July 16.—Nothing to cause the slightest hope for the Peking legations comes from any source. There is no doubt but that the slaughter told of last week has occurred.

LONDON, July 16.—The details of the slaughter of the legations say the butchers was atrocious. The victims, being without ammunition, were overpowered and slew with the sword, not one being left to tell the tale. The victims died like heroes and the Chinese loss was enormous. It is said Prince Ching's forces deserted to the British and then checked his efforts to save the legations.

WASHINGTON, July 16.—Formal announcement of their adherence to the principles first enunciated by Secretary Hay as those which the United States would observe in the Chinese crisis has been made by the powers of Europe and Japan. It can be stated authoritatively that Russia has officially assented to the policy proclaimed. The purpose is to seize Peking and set up a new government, with Li Hung Chang at the head.

RESULT IN DOUBT

THOUGH BECKHAM LEADS, OPPOSITION IS STRONG.

The Field Against the Young Usurper With Lively Contest at Hand.

LEXINGTON, July 16.—While it looks like Beckham has a big lead for governor through county action Saturday and today, his nomination is not assured. The opposition has a fighting chance and the convention Thursday will have to settle a lively contest without doubt. It is now the field against Beckham.

PICNICKERS YESTERDAY

Many Persons, Young and Old, Spent Sunday in the Woods.

Two picnic parties enjoyed themselves yesterday in the woods near the city.

Messrs. John Isenau, James Bailey, Lewis Seamon, Henry Seamon, Raymond Seamon, Messrs. Cora and Clara Seamon, Mr. and Mrs. Seamon, Mr. Sam Smedley and children and Mr. Diehl went to Cold Springs.

Master Geo. Haag, Ed Leonard, Ben Wilson, Mike Kollach, Jack Fisher, Jno. Pelett, Joe Bergdahl, Leo Shaffley, Claude Pike, Misses Louise Bergdahl, Lillian Stary, Martin McCrory, Ada and Ethel Clarke, Annie Halpin, Rosie Weikard, chaperoned by Mrs. F. J. Bergdahl, spent the day in the Clark's River section.

All for Beckham.

The Democratic county convention this afternoon named delegates to the Lexington convention. They were instructed to vote solidly for Beckham and his interests. The decision was a no wise move, as the delegates to the Lexington convention were to be chosen by the people.

YERKES

Will Be Named for Governor of the State in Louisville Tomorrow Afternoon.

THE CLANS ARE GATHERING

Attendance Will Be Large and Enthusiastic—Goebellism to Be Hit Very Hard.

BIG RATIFICATION IN THE EVENING

LOUISVILLE, July 16.—The Republican leaders are already arriving for tomorrow's convention. All agree it will be the most enthusiastic and largest attended gathering of its character ever held. The executive committee meets tonight. The prospects are the convention will develop into a grand rally as soon as its work is finished.

The organization of the districts takes place tomorrow afternoon at 1 o'clock.

The first district will meet at the Willard Hotel.

The sub-committee of the Republican central committee is holding a meeting this afternoon to amend the party laws.

Judge Yerkes is here, the center of much interest. He had many Democratic callers today.

Anti-Goebellism will be the song of the body. There will be nothing else thought of.

Ex-Lieutenant Governor Marshall will preside as temporary chairman. Either Judge Barr or T. Z. Morrow, of Somerset, will be permanent chairman.

Judge Yerkes will be nominated by ex-Governor Bradley. A ringing speech is expected.

The convention convenes in the Auditorium at 2 o'clock and will be through all but the ratification by evening.

The ratification occurs at night.

LARGE EXCURSION.

About Seven Hundred Persons Went to Evansville Yesterday.

One of the largest excursions ever carried out of Paducah was the one out of this city over the Illinois Central yesterday to Evansville. About 700 Paducahans took advantage of the \$1.50 rate for the round trip. The train left here at 7:30, returning at 8:30 this morning.

An accident occurred near Fredonia. The victim was a young man who lives at Fredonia. He was standing on the platform of one of the coaches striking his foot out, boy like. It struck a cattle guard and his limb was broken just below the knee.

On account of the drought which is killing their cattle the Pima Indians in Arizona are threatened with starvation.

MOONLIGHT PICNIC.

Misses Richardson Will Give one in Honor of Their Charming Guest.

Misses Cora, Garrett and Emma Richardson will give a moonlight picnic this evening over at the lake in Illinois, in honor of their charming guest, Miss Helen Carroll, of St. Louis. Those who will attend are: Miss Helen Carroll, of St. Louis; Misses Carrie Grace, Gustaf Herring, Ada and Mary Brazelton, Emma, Cora and Garrett Richardson; Drs. Owen and Sanders; Messrs. Robert Rivers, Hart Schmitt, Chas. Wilstock, Harry Gilbert, Parker Chastine, Miller Bradshaw, Chas. and Eugene Richardson, Mrs. R. J. Carroll of St. Louis, and Mrs. W. H. Richardson will chaperone the merry party. They will go over on the steamer Little Owen at 5 o'clock and return about midnight in skiffs.

POWERS CASE.

Telegrams Relative to the Mountaineer's Trip to Frankfort.

GEORGETOWN, July 16.—The Powers trial has commenced today. The telegram alleged to have been sent by Caleb Powers, asking him how many mountaineers could be sent to Frankfort, were in evidence this morning.

Campbell is overshadowing Hendrick and Franklin, prosecutors, causing much jealousy.

MONSTER AMONG TRUSTS.

Gigantic Telegraph and Telephone Combine May Be Object of New Corporation.

The National Telephone and Telegraph Company. The merging of these vast interests would mean a corporation the capital of which would run into millions, and the Western Union Telegraph (Inc. 1897)

The specific object of the company just incorporated in New Jersey with a capital of \$50,000,000 is to buy up or otherwise absorb every one of the small independent telephone companies which cropped up throughout the country when the Bell telephone patents expired.

By getting control of these and working in co-operation with the Telegraph, Telephone and Cable Company of America the National Telephone and Cable Company is intended that far.

REPUBLICAN TICKET.

For President,
WILLIAM McKINLEY,
 (Ohio).
 For Vice President,
THEODORE ROOSEVELT,
 (New York).

In the last 50 years this is the only presidential election year that hasn't been distinguished by a decided business depression. Trade slumps, manufacturing dull, and money tight. Now the question, why? will not down. Is it because of a virile and a growing prosperity that cannot be balked by what would usually depress commerce and manufactures, or is it from some other and occult cause? Can't, not to say universally, the people begin to feel the depression accompanying the quadrennial struggle within the very early months of the year in which it took place, but certainly with the date of nomination, but this far, with all platforms understood, all candidates named, and a fair acquaintance with their record by the public, and no sign of even a relaxation of trade or business. Is it not because the people have already foreseen the result with the accuracy and distinctness of the seer and the prophet of old, and are able to say: "All is well, no change from a tried to an untried leader this year, rest in the assurance." It would seem so.

The fact that Davless, Hancock and McLean continue decided Saturday by pre-arranged conventions, to send anti-Unionist delegations to the Lexington Democratic convention causes the Owensboro Messenger, which has been against Hancock's selection, to remark: "Davless, Hancock and McLean—these three always stand together for good sense and good politics. Would that some of our neighbors had better insight to the danger that threatens the Democracy of Kentucky." What the Messenger means by the danger to Democracy it refers to is thus explained by itself in these words: "Only a deep sense of duty to the Democratic party impelled a majority of the Democrats participating in the convention to refuse instructions for him. The belief prevails here, as it does in the counties of his own congressional district, where he is best known—five out of nine instructing against him—that his nomination would not be a strong one. Still sentiment and sympathy, among undisciplined and unthinking people, have worked much in his favor in other sections of the state, and it is not improbable that he may be nominated."

The Democracy of the state in trying to shelve Geobell down the throats of the voters of the state have overreached themselves. Their nominee for governor is to be Beckham, the weakling, and the Geobell recipient of an office to which he was not elected, whom the people will repudiate at the polls by a vote even the gang will dare not steal.

"Impresario" would be made a great league to the voters. Yet what does the talk amount to? To the Democrats really believe that any man of sound and disposing mind can be made to believe that the Republican party wants to destroy democratic republicanism in the United States and establish an empire in place of it? Democratic platforms and agitators and newspapers chatter about the republic or the empire? Who wishes to change the form of government? Who are the dangerous imperialists who are going to make the country all "slave"? The Democratic party went crazy in 1896, and it is crazier in 1900. To the sixteen to one

madness and the delusion about a conspiracy of the money power, it now adds this hypocritical lunacy of a conspiracy to get up an empire.

The election this fall comes under the federal law, and every ballot box forger and thief must answer in the United States courts, where political influence does not count and where juries cannot be bribed. We will have an honest election in November, Geobell law or no Geobell law, if the sound-drears who have been disfranchising voters by fraud and intimidation realize their danger.

The Geobell papers are sending out very yellow reports relative to the Powers case, at Georgetown. Judge Cantrell's warning to be fair and adhere to the testimony has had no weight with the fellows who represent these papers.

Gen. Horatio C. King, a prominent Brooklyn Democrat, announces that he cannot support Bryan, and states that "the Kansas City platform is as far from true Democracy as darkness and light."

It is significant of the general result when David R. Hill admits that McKinley will carry New York.

Enthusiastic and unprecedented large county conventions were held by Republicans over the state Saturday afternoon. Notably at Yorks was mentioned anywhere. The party of the state was never better organized nor more sanguine.

Bryan, the Pope, claims an improvement of his chances over those of '96. There isn't one state that was against him then that isn't now decidedly so now and several which gave him their vote then have since shown they would not again, and still others that if they give him their vote at all it will be by greatly reduced majorities. Even Nebraska, which is affected with the usual local pride, will greatly reduce his majority if it does not repudiate him.

"The place to swap horses is not in the middle of the stream," said Mr. Lincoln, and the American people are almost unanimously of that opinion, hence Mr. McKinley will be re-elected.

The rejection of a juror because of his political affiliation seems to the Sun a new doctrine of the law, and one peculiarly proper to have been discovered by Tom Campbell and Jim Cantrell.

Two out of twelve can prevent a conviction, but nine or eleven in twelve can make it decidedly warm for the one, and that will doubtless happen at Georgetown.

THIS IS THE PLANK.

Chicago Inter Ocean: "President McKinley made ocean at t'antoon several shortcomings of the Republican platform. In response to the formal notice of his renomination he was called upon to define Republican policy and declare Republican purpose. In so doing he spoke clearly where the platform is vague, strongly where the platform is weak, vividly where the platform is commonplace. After referring to the questions of 1896, the President said:

"The Philippines are ours and American authority must be supreme throughout the archipelago. There will be no annexation of our duty, no abandonment of our rights. There must be no seceding policy.

"There is clear and specific. No one can doubt what it means. The humblest voter in the land can learn from it that the Republican party is determined to hold the Philippines without sacrificing an American duty.

"No outside interference blocks the way to peace and a stable government," continued the president. "Obstructionists are here, not elsewhere. They may postpone but they cannot defeat the realization of the high purpose of this union to restore order to the islands and establish a just and generous government."

"In this campaign the Democrats as represented by Mr. Bryan are committed to the obstruction policy. They are employing all the catch words and phrases of a discredited minority to turn the people away from the consideration of the strong national sentiment which finds expression in every part of our common country and the increased respect with which the American name is greeted throughout the world.

"Acceptance of the obstruction policy as a force against the Republican party, the president assures the people that there will be no backing, no wavering, no retreat. The Republican party dedicated to freedom forty-four years ago, has been, in the language of the president, the party of liberty and emancipation from that hour—of profession, but of performance. It broke the shackles of 4,000,000 slaves and made them free, and to the party of Lincoln has come another supreme opportunity which it has bravely met in the liberation of 10,000,000 of the human family from the yoke of imperialism.

"This is the plank on which the Republican party stands, with spotlights to none and with justification before all. It is a plank as sound as the declaration of independence and as American as the Stars and Stripes. It is a plank against which the whole Bryan platform of ruin and scuttles most shatter in November. This has been written in the records of the nation every day since the Maine went down in Havana bay."

QUESTION OF WISDOM.

The Lowering of the Pavements in Front of the Richmond House.

In the city going to get into a lawsuit over the proposed lowering of the pavement along side of the Richmond house. There is such talk and it will no doubt materialize.

By the by, in recalling some stages of water from which Paducah has suffered in the past it seems to the Sun it would be better if the side walks on both sides of Broadway from Maiden alley to First street should be raised rather than lowered. The property would be benefited rather than damaged and the way to the river would be passable in case of more high water, which would not be always the case if they were cut down.

The city in making these and other improvements should not hew to a line of symmetry entirely—and it hasn't in many parts of the city—but work with an eye to the best interest of the people, one and all, and to the utility of the improvements. Otherwise such improvements went improve.

THE COUNCIL.

Mayor Pro Tem Davis Will Probably preside Tonight.

Mayor Pro Tem C. R. Davis will probably preside at the regular meeting of the council tonight, as Mayor Lang is not expected here until Tuesday.

The contract and bond of Portena & Patterson, the contractors for the paved streets, will be brought up for ratification. Mayor Lang did not deem this necessary, but some of the councilmen do, and it is understood the contractors want the council to ratify them.

HUCKSTER CASE CONTINUED.

Judge Sanders has not yet decided the question whether \$2 a day for hawkers and hawkers is excessive license. The case is one Sam Cohen wants decided and is testing. The court has left the case open in order that City Attorney Lightfoot may be heard. The court intimates however that it considered the license excessive.

FAMILY REUNION.

The Whittemore (in Champion of the 13th, in speaking of the Farley family reunion, says: The reunion of the Farley family was held in this city yesterday, July 13. The last previous general reunion of the family was held in Wisconsin in 1893. The ranks have never been depleted by death and all the children, four boys and four girls, assembled here yesterday to renew the bonds and memories of childhood. The immediate members of the family are: J. M. Farley and Mrs. Cridgion, of Whittemore; Ed and John Farley, of Paducah; Wm. Farley, Lyons, Wis.; Mrs. O. Farley, Mrs. Jane Gough and Mrs. George Knight, of Racine, Wis. The combined weight of the "children" is 1490 pounds, the four boys weighing 670 and the four girls 810. The eldest of the family is 63 years old and the youngest is 47.

A number of relatives joined with the Farley boys and girls in helping to celebrate the occasion. The complete list numbered 33.

WHEAT AT ALL RIGHT.

The Late Rains Did not do the Damage Reported.

A Sun reporter in an interview with Mr. H. Rumpelsh, Sr., of Memphis, this morning, learned that the wheat in Kentucky and Illinois is in first class condition, and not damaged as reported.

Mr. Rumpelsh formerly conducted the largest flouring mill in Southern Illinois and is excellent authority for the above statement.

He reported the farmers very prosperous and in high spirits over the good price of wheat and the excellent output.

The millers are expecting large business in flouring trade.

S. H. Winstead.

In Chicago checks for a large amount are supposed to be lying in a pile of unopened mail that awaits the return of John F. Wollensack, and tenants are anxious to pay thousands of dollars due for rent, but no one can tell the whereabouts of the eccentric business man who disappeared last December. Mr. Wollensack is 60 years old and is estimated to be worth half a million dollars. January 1 a letter dated San Francisco was received from him by an insurance firm. Since then efforts to find him have proved unavailing.

Birmingham, Ala., it appears, is sending coal considerably further than to Newcastle. A letter to "The Chicago Tribune" from Berlin says: "The Birmingham coal agent who, as already related in these cables, has placed an order for 100,000 tons in Germany, has received numerous requests from manufacturers for samples and information. The result of the tour of investigation he is making will undoubtedly be as large as the entrance of the mines of the Rheinland and Westphalian syndicate. Indeed, nearly all the German mines have contracted to deliver their entire output for fixed prices until April, 1901. Until then American coal can find a market far above German prices."

AUGUST 15TH.

This is the Date Set for Completing the New Brewery.

The new Humber brewery near Tenth and Harrison streets will be completed August 15th, is the present estimate.

THE CHINESE AMBITION.

It is to have money to spend in China. A somewhat superstitious law in this country shuts out John Chinaman from citizenship. That is no grief to John. He doesn't yearn for the enlightenment of western civilization typified by foreign devils who attempt to restrict his use of opium and even go so far as to deny him the right of gambling. What he wants to do is to live here on 20 cents a day, while making \$2 a day, and as soon as he gets enough surplus, go back to his ancestral home where he can support a family in great comfort on something like 12 cents a day. The copyright on this article doesn't prohibit persons with a taste for mathematics from using these figures as a basis for calculating how long it will be before, under present conditions, America has a permanent Chinese population. Of course, John sometimes marries here and settles down. His wife may be a Chinese woman, to whom he was betrothed years before, when she was a baby, and who comes over here in the steerage and under espionage to fulfill the obligation entered into by her parents, and to find herself the center of considerable celebrations, extending through the streets of the quarter.

His wedding of the bride and groom was 21 and the bridegroom 50. The betrothal had lasted since her second year. More often the bride is one of the debauched victims of the quarter, and the wedding ceremony is after the American custom, for which the Chinaman has little regard. It matters less in that the wife commonly dies in a year or two, rarely leaving any offspring. Opinion does it. To the Mongolian it is one of the blessings of life. To the Caucasian it is mental, moral, and physical decay, then immortality; then death. There is a third class of marriages not pleasant to contemplate—the union of Chinamen to young Sunday school teachers. There was a time, not long ago, when associations of this kind resulted in several weddings. Many more might have followed had not several outspoken and courageous clergymen delivered warnings from the pulpit of the folly and danger of such alliances; whereupon they were, as a matter of course, denounced in round terms from many other pulpits so enemies to the propagation of the Christian faith.—Leslie's Weekly.

In Chicago checks for a large amount are supposed to be lying in a pile of unopened mail that awaits the return of John F. Wollensack, and tenants are anxious to pay thousands of dollars due for rent, but no one can tell the whereabouts of the eccentric business man who disappeared last December. Mr. Wollensack is 60 years old and is estimated to be worth half a million dollars. January 1 a letter dated San Francisco was received from him by an insurance firm. Since then efforts to find him have proved unavailing.

Birmingham, Ala., it appears, is sending coal considerably further than to Newcastle. A letter to "The Chicago Tribune" from Berlin says: "The Birmingham coal agent who, as already related in these cables, has placed an order for 100,000 tons in Germany, has received numerous requests from manufacturers for samples and information. The result of the tour of investigation he is making will undoubtedly be as large as the entrance of the mines of the Rheinland and Westphalian syndicate. Indeed, nearly all the German mines have contracted to deliver their entire output for fixed prices until April, 1901. Until then American coal can find a market far above German prices."

THE CHINESE AMBITION.

It is to have money to spend in China. A somewhat superstitious law in this country shuts out John Chinaman from citizenship. That is no grief to John. He doesn't yearn for the enlightenment of western civilization typified by foreign devils who attempt to restrict his use of opium and even go so far as to deny him the right of gambling. What he wants to do is to live here on 20 cents a day, while making \$2 a day, and as soon as he gets enough surplus, go back to his ancestral home where he can support a family in great comfort on something like 12 cents a day. The copyright on this article doesn't prohibit persons with a taste for mathematics from using these figures as a basis for calculating how long it will be before, under present conditions, America has a permanent Chinese population. Of course, John sometimes marries here and settles down. His wife may be a Chinese woman, to whom he was betrothed years before, when she was a baby, and who comes over here in the steerage and under espionage to fulfill the obligation entered into by her parents, and to find herself the center of considerable celebrations, extending through the streets of the quarter.

His wedding of the bride and groom was 21 and the bridegroom 50. The betrothal had lasted since her second year. More often the bride is one of the debauched victims of the quarter, and the wedding ceremony is after the American custom, for which the Chinaman has little regard. It matters less in that the wife commonly dies in a year or two, rarely leaving any offspring. Opinion does it. To the Mongolian it is one of the blessings of life. To the Caucasian it is mental, moral, and physical decay, then immortality; then death. There is a third class of marriages not pleasant to contemplate—the union of Chinamen to young Sunday school teachers. There was a time, not long ago, when associations of this kind resulted in several weddings. Many more might have followed had not several outspoken and courageous clergymen delivered warnings from the pulpit of the folly and danger of such alliances; whereupon they were, as a matter of course, denounced in round terms from many other pulpits so enemies to the propagation of the Christian faith.—Leslie's Weekly.

ORTHODOX RUSSIAN CHURCH IN CHICAGO.

The czar of Russia has donated 20,000 rubles, or about \$10,000, for the erection of an Orthodox Russian church in Chicago at Leavitt and Orchard streets. Bishop Tyso of the Orthodox Russian church, is in Chicago arranging for the expenditure of the money. His headquarters are in San Francisco.

WHEAT AT ALL RIGHT.

The Late Rains Did not do the Damage Reported.

A Sun reporter in an interview with Mr. H. Rumpelsh, Sr., of Memphis, this morning, learned that the wheat in Kentucky and Illinois is in first class condition, and not damaged as reported.

Mr. Rumpelsh formerly conducted the largest flouring mill in Southern Illinois and is excellent authority for the above statement.

He reported the farmers very prosperous and in high spirits over the good price of wheat and the excellent output.

The millers are expecting large business in flouring trade.

SOON TO WED.

A Marriage Which Will be Consummated in Paducah on the 31st.

[Communicated.]
 On Tuesday, the 31st day of July, 1900, at 10 a. m., at the First Baptist church in the city of Paducah, Ky., the beautiful ceremony of marriage will be celebrated by Rev. Dr. Percival, minister of the First Baptist church, uniting in holy and sacred wedlock Mr. Paul C. Ferrelland, Currier, of Bayonne, France, and Miss Emma Catherine Thompson, of Paducah, Kentucky, daughter of Mr. and Mrs. James W. Thompson and grand-daughter of Mr. Wilson Thompson, deceased, a pioneer citizen of Paducah.

This marriage will tend to indissoluble and eternal bonds and fetters of golden happiness a worthy son of a noble ancestry from historic France, and one of the fairest, sweetest, loveliest and most beautiful daughters of Kentucky—a state famed for its lovely and beautiful women—one possessed of rare charms of mind, heart and person.

The groom is a full graduate from the Jesuit Brothers college of Chertres, France, and from the Prot. gymnasium at Leipzig, Saxony, and has been the trusted general agent representing the French airline packing house of L. Boziers, of Douarnenez, and also the olive oil refinery of Sabou, France, for eleven years traveling and soliciting business throughout Europe, South America and the United States of America, a position of great responsibility and trust from young a man.

Mr. Carriere is a son of Mr. Leon Carriere, P. M., manufacturer and broker with offices all over the European continent, and a nephew of the famous and renowned French painter, Eugene Carriere.

The bride, so well known in Paducah, can trace her lineage on the maternal side back through an unbroken chain to the grand and good John C. Calhoun and the great and noble ex-Governor Pickens of the "Old South state"—names honored by their state and nation and history.

After the marriage ceremony shall have been concluded the happy young people will drive immediately to the depot and will take the east bound train going to Greater New York City and then taking steamer they sail for Europe, visiting many historic points, and during their absence they will spend a part of their time looking through the Paris Exposition, returning to the United States about the 15th of September next. They will be at home to their friends at the Palmer House in the city of Chicago.

The best wishes of all and hopes of the hearts of hundreds will follow them.

Judge Baker in the Federal court at Fort Wayne decided that the U. and O. railroad was liable for damages to the amount of \$7,500 for the death of an employee named Hay, who was killed through the negligence of a fellow employee. This is the first time the federal court in Indiana has construed the law in that way, and the decision is regarded as an important one.

CURED BRONCHIAL TROUBLE.

Chas. E. Davis, 1071 W. Congress St., Chicago, says: "I suffered for years with bronchial trouble and tried many kinds of medicines without relief, until I began taking FOLEY'S HONEY AND TAR, which cured me. Take no substitute."

SMUGGLING SIBERIAN GOLD.

A Chinese Drunk that Makes You Drunk When You Drink Water.
 In spite of the most stringent Russian laws on the subject—the taking away of gold without government consent—there is an enormous business done all over Siberia in gold, both dust and, especially, nuggets stolen from the workings. It is a criminal offense to be found in possession of gold, but so large a proportion of the population of Siberia consists of those people, that the Russian officials, even in Russia proper, are seldom altogether unreasonable, and in Siberia, where the prevalent saying of the dishonest "chlovnik," "It's a long way to Peter" that is, St. Petersburg—is especially significant, the official is good natured in the extreme, and a substitute can always be bought to accept the unpleasant responsibilities. A great part of the gold is conveyed over the China frontier—that is, across the River Amur, which is the sole defense of the frontier against smuggling from both sides—and finds a ready sale at ruinous sacrifices in exchange for a certain quantity of Chinese goods. The valuable properties of this spirit, much esteemed by Russian and native alike, are that it gives the customer the benefits of intoxication one day and on the next he can obtain the same excited state by the cheap expedient of drinking water.

TO ASTHMA SUFFERERS.

Lawson Elridge, of Lexington, Ill., says he was cured of chronic attack of lung standing by FOLEY'S HONEY AND TAR. It gives positive relief in all cases of asthma, so this disease, when not completely cured, is robbed of all its terrors by this great remedy. Take no substitute.

Observations
....at Random

Whitcomb who have long suffered
from punctured tires may now feel
that the millennium is at hand. A
German scientist has invented a pneu-
matic proof tire filling which is said to
be a great success, and will prove in-
valuable to bicycle riders, as well as to
owners of rubber tired vehicles of all
kinds, and air-saddles and cushions.
The filling is a jelly made of glue.
Glycerine is added to prevent hard-
ening, and an antiseptic preparation
that keeps it from fermenting. The
mixture is first heated until it liqui-
fies, and is then beaten to a stiff foam.
While in this frothy condition it is
introduced into the tire or saddle, and
allowed to cool and partly solidify.
The result is a light, spongy material
of cellular formation, exceedingly
light in weight, and proof against
tacks, nails, glass, and all punctur-
ing objects.

The Elks extension will in all proba-
bility be inaugurated this week, and
will give to the public a high class
of entertainment, together with the most
delightful dining possible, at regular
intervals throughout the summer. In
their undertaking the members of the
popular order will have the able co-
operation of the ladies' auxiliary,
which will look after all refreshments
and such things, while the arrange-
ment of the program will be left largely
to Prof. H. H. Farham. The Elks
are already grateful and appreciative
for the many assurances of success,
and for the talented people who have
offered their services on the program.

Approves the Chinese, a laughable
story is going the rounds about Wm
Ting Fang, the Chinese minister—who
cannot feel very funny at present.
When he was at the Mardi Gras fe-
stivities at New Orleans he obliged an
antagonist by writing something on
the back of the cuff. That part of
the cuff the recipient cut out and put
into his pocketbook, and has since been
showing it to Chinese laundrymen,
who all agree that they "can't make
him out," but at the same time fall
into spasms of merriment as they look
at it. Evidently Wm Ting Fang is a
humorist.

A serious question for the council
to decide is what the energetic porters,
who daily devote half an hour to
sweeping the dirt and litter from va-
rious business houses on Broadway
into the gutters, are going to do for a
place to sweep the trash when the
storm water sewers are in and the
paved streets finished. The gutters
have long been very useful to the
stomachful pedestrians, and to deprive
them of the necessity at this stage of
the game seems hard indeed. The
question is a momentous one that the
council should lose no time in settling.

The Increase of Nationalities.
From the Paris American Register:
According to a German statistician,
Russia is the nation which increases
the fastest—her population will double
in about forty-five years. Germany
needs sixty-five years, Austria-Hun-
gary seventy, England eighty. Italy
110, but France can only do it in 160
years, provided the present annual
increase does not diminish, which un-
fortunately seems to be the case. The
loss of Alsace-Lorraine, with a popu-
lation of 1,250,000 souls is nothing in
view of the insignificant amount in-
crease of France's population. During
the last five years the population of
Germany has increased 3,000,000, while
France's increase has been scarcely
175,000—a considerable part of whom
are moreover of foreign nationality.

Interesting Notes on Nelson.
Two interesting relics of Nelson
were sold at Christie's, London, Eng-
land, for £77 and £100 respectively.
The first was a cut and polished steel
snuff box, lined with gold, and in-
scribed "This box was presented to Na-
tional Viscount Nelson by the Society
of Steelworkers of Birmingham, Sep-
tember 4, 1792. Let him wear the palm
which has deserved it." The second was
a small oblong oak box, with lid in-
laid with a minute ivory carving of
the British fleet before the battle of
Trafalgar.

DECLARE THEMSELVES.
Livingston County Republicans on National
and State Issues Speak Clearly.

Pursuant to a call of the Republi-
can chairman of Livingston county,
the Republicans met in mass conven-
tion at St. Hilliard July 11, 1900, for
the purpose of selecting delegates to
the state convention, adopted the
following resolutions, to-wit:
Resolved: That we approve
of the call for this convention, also
for state convention.
Resolved, That we reaffirm our
unaltered fidelity and allegiance to
the time-honored principles of the
Republican party, and therefore most
heartily endorse and approve of the
administration of President Wm. Mc-
Kinley as wise, just, statesmanlike
and patriotic. We also endorse the
official acts of Senator W. J. Debor-
an being just, patriotic and impartial.
Resolved, That we endorse the
Republican platform as adopted by
the National Republican convention
which assembled in the city of Phila-
delphia, June 12, 1900; that we
heartily endorse the action of edu-
cated and uneducated, Wm. Mc-
Kinley for President and Theodore
Roosevelt for Vice-President, and
that we pledge to McKinley and
Roosevelt the solid Republican vote
of Livingston county.
Resolved, That we denounce in
unmeasured terms the outrageous
and infamous methods resorted to by
the boisterous faction of the Demo-
cratic party in setting aside the will of
the people as expressed at the polls last
November, for forcing themselves
under the Goshel law into offices in
which they had not been elected. We
also denounce the Goshel law as un-
just and unfair and as having entailed
on this state a vast amount of ex-
pense which necessarily imposes a
heavy burden on the tax-payers of the
commonwealth, and placed a stigma on
the fair name of Kentucky. We
therefore appeal to all fair-minded,
peaceable, law-abiding and liberty-
loving citizens, regardless of former
political affiliations, to join us in our
battle of civil liberty to the end that
a free and fair count may be had in
Kentucky elections, and the once
fair name of our commonwealth be
restored. Recognizing as we do in
the person of the Hon. John W.
Yerkes a man of sterling worth, of
superior national ability, and high
scholarship attainments, a jurist whose
legal attainments are unquestioned,
an orator of national reputation and
a lifelong Republican whose fealty
to the party principles has never
been doubted. We believe that with
Yerkes as our standard-bearer for
governor, that under his magnificent
leadership our banner would trail in
the just but would be triumphant
any borne to a glorious victory on
the 6th day of November next.

Resolved, That the chair ap-
pointed a committee of one from each
precinct whose duty it shall be to se-
lect the names of nine men whom
they shall recommend to this conven-
tion as delegates to the gubernatorial
convention at Louisville, Ky., July
17, 1900, that said delegates be in-
structed to vote as a unit for the
Hon. Jno. W. Yerkes as a candidate
for governor.
The above resolutions were unani-
mously adopted and the following
named persons were elected as dele-
gates to the state convention: J.
Frank Collier, H. H. McGuire, W.
D. Bishop, G. L. Allison, Peter
Styer, H. C. McCord, D. A. Sexton,
W. L. Champion and Albert Chan-
dler.
He further resolved That a copy
of these resolutions be sent to the
Louisville Commercial and the Padu-
cah Sun with a request to publish
the same.
